RUMI WELFARE CAFE & RESTAURANT KRL — VISUAL USER MANUAL & GUIDE

Step-by-Step Illustrated Guide: How to Start Fresh (No Dummy Data), Manage Orders, Stock, Expenses, Suppliers & Reports

Generated: 08-Nov-2026 12:11 PM PKT | Version: v9.5 Final Visual Edition | Currency: PKR (Rs.)

1. Built-In Clean Day-1 Setup (Only Menu Products Included; Zero Dummy Data) & Login Roles

How Your Clean Production System Starts Out-of-the-Box:

• **1. Menu Products Pre-Loaded:** All RUMI Cafe menu items (Karak Chai, Desi Chicken Karahi, Roghani Naan, Zinger Burger, Halwa Puri, Mango Shake, etc.) with their photos, prices, costs, and variants are ready on the POS screen so you can start billing immediately.

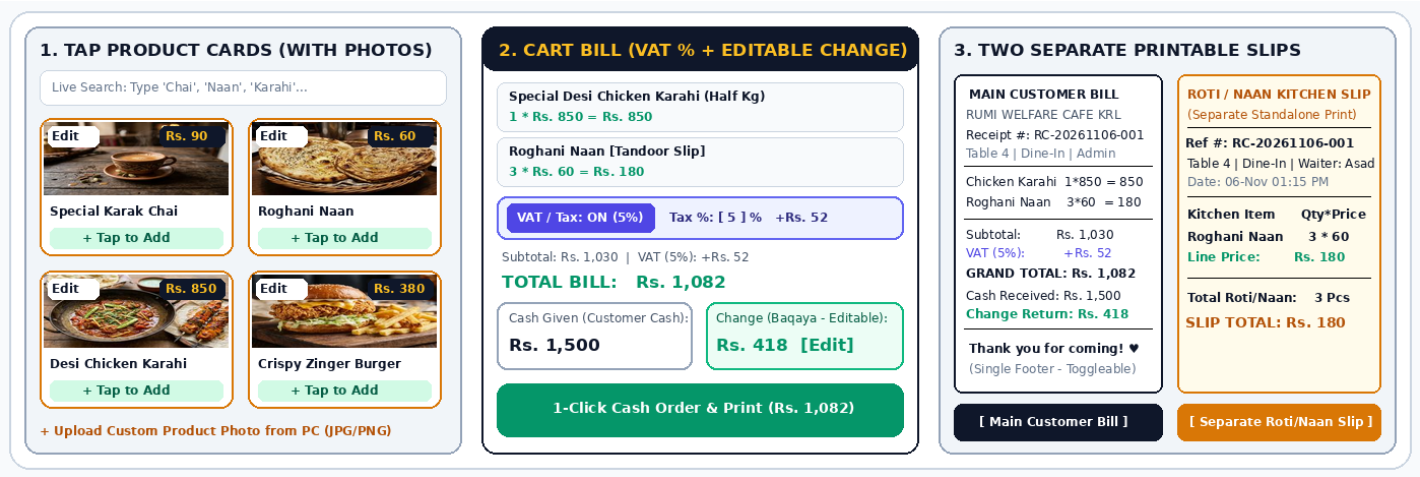

• **2. Zero Dummy Transactions:** All dummy records have been permanently removed from the system. **Orders = 0, Daily Expenses = Rs. 0, Stock Register & Daily Stock Issued = 0, Customer Udhaar = Rs. 0, and Supplier Balances = Rs. 0**.

• **3. Automatic Permanent Saving:** Every real order, stock item, kitchen issue, expense, customer, or supplier you add from now on is automatically saved in your clean production storage (**`ROOMI_CAFE_CLEAN_V10_PRODUCTION`**).

Quick Navigation Guide — What Each Sidebar Tab Does

Sidebar Tab Name	Who Can Access	What You Do in This Tab (Daily Cafe Workflow)
1. POS Order Screen	Admin & Cashier	Search or tap product cards, toggle VAT %, enter Cash Given & Change, and click Cash Order & Print.
2. Orders History & Refunds	Admin & Cashier	Search any order by Order # (RC-20261106-001), filter by Calendar Date, print Main Bill or Roti/Naan Slip, or Refund.
3. Executive Dashboard & P&L	Admin Only	See Today, 3-Day, Weekly, or Monthly Sales, Cash Sales, Online Sales, Udhaar, Expenses, and Net Profit/Loss.
4. Reports & PDF Center	Admin Only	View Best-Selling & Highest-Profit Products, Expense/Loss Drivers, and download 3 types of Detailed PDF Reports.
5. Products & Cost/Price Edit	Admin Only	Add new menu products, upload product photos from your PC, or edit Selling Price, Purchase Cost & Variants.
6. Daily Stock Issue & Inventory	Admin Only	Add new stock items (kg, litre, portion, custom), issue stock to kitchen daily, and click +Add More to update issued qty.
7. Financial Summary	Admin Only	Simple, clean overview of Total Sales, Product Cost, Operating Expenses, Net Profit/Loss & Cash in Hand (no Dr/Cr clutter).
8. Customers & Suppliers	Admin Only	Track Customer Udhaar (with WhatsApp reminder) and Supplier Bills, Paid Amount, Remaining Balance & 1-Click Pay All.
9. Daily Expenses & Cash Closing	Admin Only	Record Cook/Waiter/Cashier Salaries, Electricity, Gas & Maintenance; count notes at night to lock shift & auto-backup.

2. How to Place Orders, Add VAT %, Edit Change & Print Separate Roti/Naan Slip

Step-by-Step Guide to Placing an Order & Managing Slips:

• **1. Select Table or Order Type:** Click any table on the top Visual Table Bar (*Table 1–6, Garden 1, Roof 1*) or select **Dine-In / Takeaway / Delivery** inside the Cart Drawer.

• **2. Search or Tap Products:** Products fill the entire screen in clean visual cards. Type in the **Live Search** box (or press **F1**) or tap any product card to add it to the active bill. Clicking a product automatically slides open the right-hand Cart Bill Drawer.

• **3. Optional Discount & VAT / Tax %:** To add tax before confirming the order, click **VAT / Tax: ON/OFF** and type any tax percentage (e.g., **5%** or **16%**) in the **Tax %** box. The VAT amount is calculated and added to the Total Bill automatically.

• **4. Cash Given & Editable Change:** Type the money received from the customer in **Cash Given** (e.g., *1500*) and **Change on Bill** auto-calculates (*418*). You can also click directly inside the **Change on Bill** box to manually type or adjust the change amount.

• **5. Main Customer Bill vs. Separate Roti/Naan Kitchen Slip:** When you click **Cash Order & Print**, the Receipt Preview window opens:

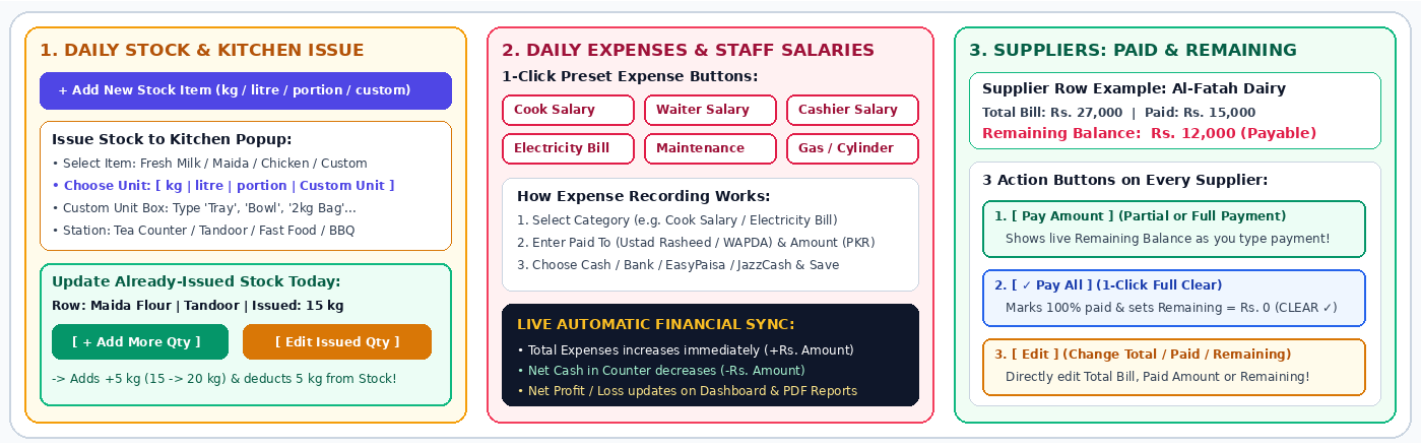

— **Main Customer Bill Button:** Prints the complete customer bill (including Roti/Naan and all other items, VAT, Cash Received, Change, and single footer).

— **Separate Roti/Naan Kitchen Slip Button:** Opens and prints a **standalone separate slip** for the Tandoor/Kitchen with the **Receipt / Order Reference # and Table info on top**, Roti/Naan quantities in the middle, and **their Price & Slip Total at the bottom**.

How to Manage Orders History, Calendar Filter, Refunds & Custom Product Photos

Task / Feature	Exact Steps to Follow in the POS
Upload Product Photo from PC	Click '+ Add Product' (or 'Edit' on any card) -> Click 'Upload Product Image from Computer (JPG/PNG/WEBP)' -> Select photo from your PC -> Click Save. The photo immediately appears on the POS card.
Choose Receipt Template (1 of 4)	Open 'Printer & Auto-Backup Setup' -> Select from (1) Classic 80mm Thermal, (2) Modern Boxed Invoice, (3) Compact Fast-Food Token, or (4) Tax/VAT Invoice. Your preference is saved automatically.
Hide or Show 'Thank You' Footer	In 'Printer & Auto-Backup Setup', check or uncheck '7. Thank You for Coming ♥'. When checked, it prints strictly once at the bottom; when unchecked, it is completely hidden.
Search Orders by Date or Order #	Open 'Orders History & Refunds' -> Pick a 'From Date' and 'To Date' on the Calendar picker or type the Order # (e.g. RC-20261106-001). Use the numbered page buttons (1 2 3 4 5) at the bottom to browse large order lists.
Refund or Cancel an Order	In 'Orders History & Refunds', click the red 'Refund' button next to any order -> Enter the refund reason. The system marks the order Cancelled, restores the recipe stock, and adjusts the cash/sales totals.

3. How to Manage Daily Stock Issue, Daily Expenses (Salaries/Bills) & Suppliers

A. How to Manage Stock Register & Daily Kitchen Stock Issue:

• **1. Add a Brand-New Stock Item:** Open **Daily Stock Issue & Inventory** and click the purple **+ Add New Stock Item** button. Enter the English/Urdu name, opening quantity, and select any unit (**kg, gram, litre, ml, portion, piece, packet, dozen**, or select **Custom Unit** to type your own unit such as *Tray, Bowl, 2kg Bag*).

• **2. Issue Stock to Kitchen Daily:** Click **+ Issue Stock to Kitchen Today**, choose the item, quantity, unit (or Custom Unit), and target kitchen station (*Tea Counter, Tandoor, Fast Food, BBQ*).

• **3. Add More or Edit Already-Issued Stock Today:** In **Today's Daily Stock Issue Register** at the top of the page, every issued item row has a green **+ Add More** button and an orange **Edit Qty** button. If you issued *15 kg Maida* in the morning and gave *5 kg more* in the afternoon, click **+ Add More**, type *5*, and it updates the row to **20 kg** and deducts *5 kg* from Current Stock.

B. How to Record Daily Expenses & Staff Salaries (Cook, Waiter, Cashier, Electricity, Maintenance):

• Open **Daily Expenses & Salaries** (or click **+ Add Expense / Salary** in Financial Summary) -> Click any 1-click preset button at the top of the popup (**Cook Salary, Waiter Salary, Cashier Salary, Electricity Bill, Maintenance, Gas/Cylinder**) -> Enter the amount in PKR and click **Save**.

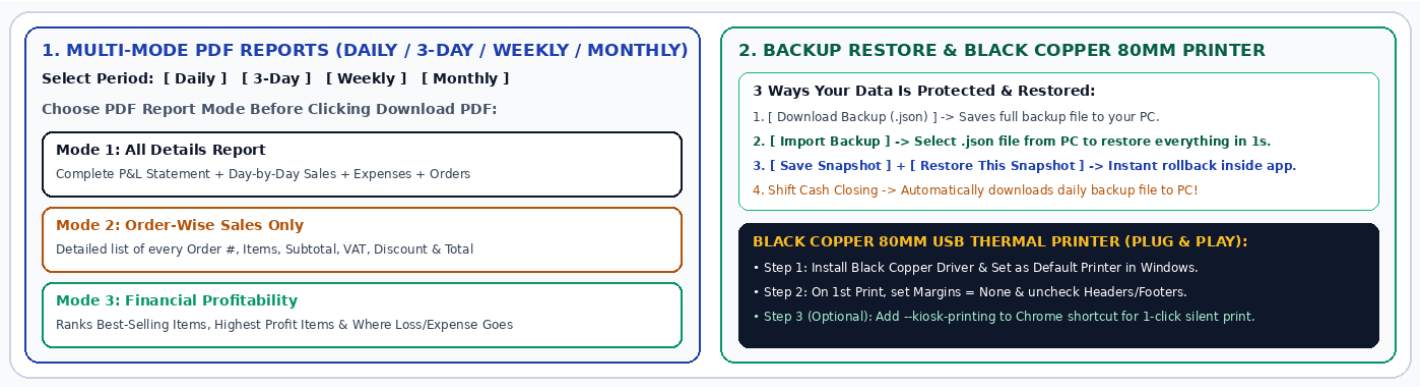

• **Automatic Profit & Cash Update:** Every saved expense immediately updates **Total Expenses**, reduces **Net Cash in Counter** (if paid by Cash), and updates **Net Profit / Loss** across the Dashboard, Financial Summary, and PDF Reports.

C. How to Pay Suppliers & Manage Remaining Balances:

• Open **Suppliers & Payments** in the sidebar. Every supplier row shows **Total Amount (Kul Raqam)**, **Paid (Ada Shuda)**, and **Remaining (Baqaya)**.

• Click **Pay Amount** to pay a partial amount (it shows the live remaining balance as you type), click ✓ **Pay All** to clear 100% of the remaining balance in 1 click, or click **Edit** to directly change the Total Bill, Paid Amount, or Remaining Balance.

4. Multi-Mode PDF Reports, Backup/Restore & Black Copper Printer Setup

A. How to Generate Detailed Financial, Order-Wise & Profitability PDF Reports:
• Open **Reports (Daily/3-Day/Weekly/Monthly)** or **Executive Dashboard**:
• **Step 1 (Pick Timeframe):** Click **Daily**, **3 Days**, **Weekly**, or **Monthly**.
• **Step 2 (Pick PDF Report Mode):** Use the dropdown next to Download PDF to select:
1. **All Details Report:** Prints the complete P&L Statement, Day-by-Day Sales & Profit table, Best-Selling/Profitable Products, Expense/Loss Breakdown, and Order-Wise Sales list.
2. **Order-Wise Sales Report Only:** Prints a clean register of all orders with Order #, Date/Time, Table, Items, Subtotal, Discount, VAT, and Grand Total.
3. **Financial Profitability Report:** Shows **what is selling most**, **where you earn the highest profit**, and **where money/loss goes** (Salaries, Electricity, Maintenance, Refunds & Low-Margin items).

B. Complete Backup & Restore Guide (Never Lose Your Data):
• **1. Download Backup to Computer (.json):** In **Printer & Auto-Backup Setup**, click **1. Download Backup File to Computer (.json)**. Also, every night when you click **Permanently Lock & Close Cashier Shift** in Shift Cash Closing, the POS automatically downloads that day's backup file to your PC.
• **2. Import / Restore Backup File on Any PC:** If you reinstall Windows, clear your browser, or move to a new computer, click **Import Backup** in the Top Bar (or in Settings), select your saved **`.json`** backup file, and 100% of your products, photos, stock, orders, udhaar, and expenses will be restored in 1 second.
• **3. Save Snapshot Now & 1-Click Rollback:** Click **Save Snapshot Now** before making major edits. To undo changes, click **Restore This Snapshot** next to any entry in the Backup History list.
